

SPECIAL RELEASE

Crops Production Statistics in Cavite 3rd Quarter 2025

Date of Release: 30 March 2026
Reference No. 2026-SR-020

Crops Production Survey

The Crops Production Survey (CrPS) is one of the major agricultural surveys conducted by the Philippine Statistics Authority (PSA). This survey aims to generate estimates on volume of production, area planted/harvested, number of bearing trees/hills/vines, and farmgate prices for crops other than palay and corn at the national and sub-national levels.

The data generated from CrPS are inputs to the Value of Production in Philippine Agriculture and Fisheries, and according to the preparation of the GDP. Moreover, the survey supports the data needs of planners, policy and decision makers, and other stakeholders in the agriculture sector particularly the National Economic and Development Authority (NEDA), Department of Agriculture (DA) and its attached agencies such as Bureau of Plant Industry (BPI) and Philippine Council for Agriculture and Fisheries (PCAF), and the general public.

Highlights of Crops Production in Cavite: 3rd Quarter 2024 and 2025

In the third quarter of 2025, the total crop production in Cavite reached 52,536.41 metric tons (MT), reflecting a 2.3 percent increase compared to the same quarter 2024 with a total of 51,317.90 MT.

Fruit crops registered the highest growth rate at 3.6 percent in the third quarter of 2025, with production of 3,798.09 (MT), compared to 9,005.24 MT in the same quarter of 2024. Production of Non-Food and Industrial Crops also increased by 2.1 percent with 38,561.80 MT volume of production in the third quarter of 2024 to 39,405.18 MT in the same

quarter of 2025. Similarly, Vegetables and Root Crops registered a 1.2 percent increase in production, with 3,798.09 MT in 2025 and 3,750.86 MT in 2024. (Table 1)

Table 1. Volume of Production by Commodity Group, Cavite:
3rd Quarter of 2024 and 2025

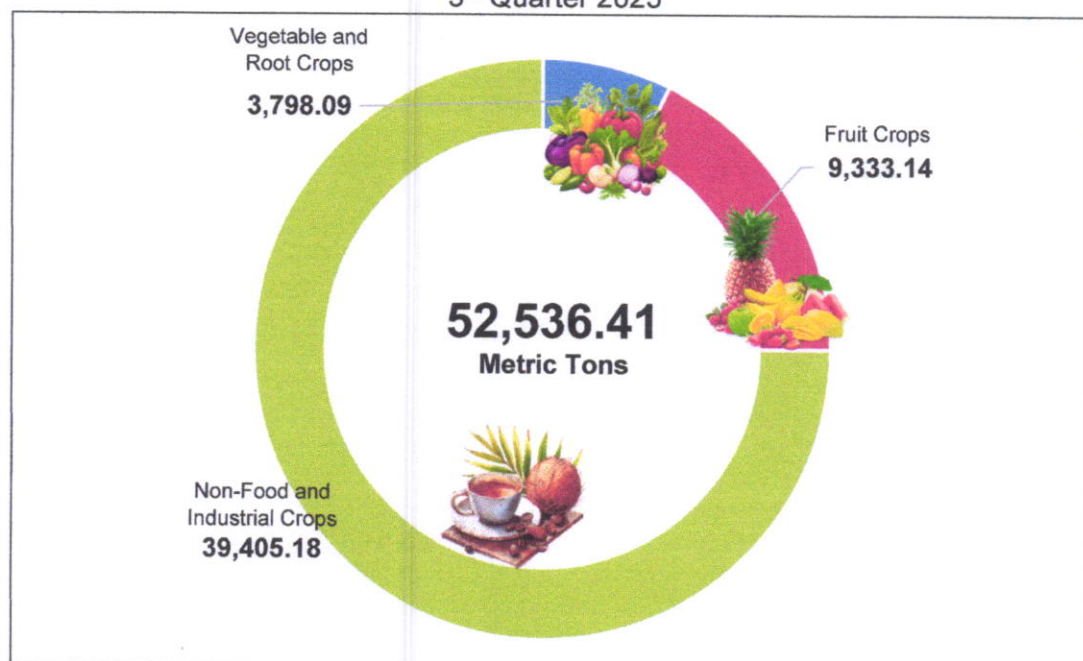

Commodity Group	Volume of Production (In Metric Tons)		Percent Change (%)
	2025	2024	
Total Production	52,536.41	51,317.90	2.3
Vegetable and Root Crops	3,798.09	3,750.86	1.2
Fruit Crops	9,333.14	9,005.24	3.6
Non-Food and Industrial Crops	39,405.18	38,561.80	2.1

Non-Food and Industrial Crops (NFIC) Top 5 Commodities: 3rd Quarter 2025

The total production for Non-Food and Industrial Crops (NFIC) reached 39,405.18 metric tons (MT).

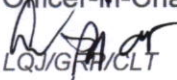

Coconut with husk recorded the highest volume at 19,654.37 MT, accounting for 49.8 percent of the overall total and representing the largest share in NFIC production. Coconut mature followed closely with 19,028.06 MT, equivalent to 48.2 percent of the total. Coconut young ranked third, with a production of 626.31 MT or 1.5 percent.

Meanwhile, cacao and orchids placed fourth and fifth, with production volumes of 48.54 MT and 26.50 MT, respectively. (Figure 4)
